**Any family who will need busing MUST complete and return this form for the 2017-18 school year. In an effort to make the routes as efficient as possible, if a request is not submitted the student(s) will not be routed.**

Section 121.54(2)(b)1., Wis. Stats., specifies that in order to be eligible to receive transportation services from the school district in which the private school pupil resides, all of the following criteria must be met:

1. The pupil resides 2 miles or more from the private school he/she attends;
2. The pupil resides within the private school's approved attendance area; and
3. The private school is located within the boundaries of the pupil's resident school district or not more than 5 miles beyond the boundaries of the school district measured along the usually traveled route. In a union high school district, with underlying elementary districts, the 5 miles from the district's boundaries is measured from the union high school district boundaries, not from each of the elementary school district's boundaries.

A student not eligible for transportation may be transported if there is room on an existing bus route and the bus does not have to alter the bus route or incur any additional cost to the district. Please see the Pay to Ride application.
